

Zynex Ranked 9th in Revenue Growth Among Medical Equipment Companies

Zynex, Inc. (OTCBB:ZYXI), a provider and developer of non-invasive medical devices for electrotherapy and stroke rehabilitation, neurological diagnosis and cardiac monitoring, announced that it has been ranked 127th on Deloitte's 2011 Technology Fast 500 list for revenue growth between 2006 and 2010. The same list categorizes companies into various industries and Zynex was ranked 9th in growth among all medical equipment companies in the U.S. and Canada. The list also indicates that Zynex is the fastest growing medical equipment company in the Rocky Mountain region (for two years in a row), as well as 2nd fastest growing company in Colorado among all technology companies. The Deloitte Technology Fast 500 list can be found at www.fast500.com.

Zynex's revenue grew 842% from the period of 2006 to 2010, with revenue in 2010 of \$24,085,000.

About The Deloitte Technology Fast 500™

Each year companies innovate, overcome obstacles and systematically defy the odds. The Technology Fast 500 program recognizes these efforts in its annual ranking of the 500 fastest-growing technology companies in the United States and Canada. The program is based on percentage revenue growth from 2006 to 2010 and recognizes all areas of technology and includes both public and private companies.

About Zynex

Zynex, Inc. (founded in 1996), operates under three primary business segments; Zynex Medical, Zynex NeuroDiagnostics and Zynex Monitoring Solutions. Zynex Medical engineers, manufactures, markets and sells its own design of electrotherapy medical devices for standard digital electrotherapy, used for pain relief, pain management and stroke and spinal cord injury rehabilitation. Zynex Medical's product lines are fully developed, FDA-cleared, commercially sold, and have been developed to uphold the Company's mission of improving the quality of life for patients suffering from impaired mobility due to stroke, spinal cord injury, or debilitating and chronic pain. Zynex NeuroDiagnostics, currently in the development stage, has been established to market EMG, EEG, sleep pattern, auditory and nerve conductivity neurological diagnosis devices through product development or acquisitions. Zynex Monitoring Solutions, currently in the development stage, has been established to develop and market medical devices for non-invasive cardiac monitoring.
