

## **Zynex Announces Share Buyback Program**

ENGLEWOOD, Colo., March 8, 2021 /PRNewswire/ -- [Zynex, Inc.](#) (NASDAQ: ZYXI), an innovative medical technology company specializing in the manufacture and sale of non-invasive medical devices for pain management, stroke rehabilitation, cardiac monitoring and neurological diagnostics, today announced that its board of directors approved a program to buy back \$10.0 million of the Company's common stock. The program will commence immediately and is scheduled to terminate on September 8, 2021 or when the \$10.0 million buyback limit is reached.

In making the announcement, Zynex President and CEO Thomas Sandgaard stated, "We are committed to delivering shareholder value, and this buyback program authorization reflects the board's confidence in both our short-term prospects and our long term growth strategy. We believe that the current market value of our shares does not accurately reflect the underlying value of the Company and the buyback program represents an attractive opportunity to deploy capital in a way that will benefit stockholders."

Under the share buyback program, buybacks may be made from time-to-time in open market and negotiated purchases, effective immediately through the next six months. These buybacks will be made in compliance with the SEC's Rule 10b-18, subject to market conditions, available liquidity, cash flow, applicable legal requirements and other factors. The specific prices, numbers of shares and timing of purchase transactions will be determined by the Company from time to time in its sole discretion. This program does not obligate the Company to acquire any particular amount of common stock and the program may be suspended or discontinued at any time, including in the event the Company would be deemed to be making an acquisition of its own shares under Rule 13e-3 of the Securities Exchange Act of 1934, as amended.

The Company expects to finance the purchases with existing cash balances, which is not expected to have a material impact on capital levels.

Zynex, Inc. had approximately 36.1 million shares issued and 34.8 million shares outstanding as of March 5, 2021.

### **About Zynex, Inc.**

Zynex, founded in 1996, markets and sells its own design of electrotherapy medical devices used for pain management and rehabilitation; and the company's proprietary NeuroMove device designed to help recovery of stroke and spinal cord injury patients. Zynex also has a blood volume monitor for use in hospitals and surgery centers. For additional information, please visit: [www.zynex.com](http://www.zynex.com).

### **Safe Harbor Statement**

This release contains forward-looking statements within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995.

Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore you should not rely on any of these forward looking statements. The Company makes no express or implied representation or warranty as to the completeness of forward looking statements or, in the case of projections, as to their attainability or the accuracy and completeness of the assumptions from which they are derived. Factors that could cause actual results to materially differ from forward-looking statements include, but are not limited to, the need to obtain CE marking of new products, the acceptance of new products as well as existing products by doctors and hospitals, larger competitors with greater financial resources, the need to keep pace with technological changes, our dependence on the reimbursement for our products from health insurance companies, our dependence on third party manufacturers to produce our goods on time

and to our specifications, implementation of our sales strategy including a strong direct sales force, the impact of COVID-19 on the global economy and other risks described in our filings with the Securities and Exchange Commission including but not limited to, our Annual Report on Form 10-K for the year ended December 31, 2020 as well as our quarterly reports on Form 10-Q and current reports on Form 8-K.

Any forward-looking statement made by us in this release is based only on information currently available to us and speaks only as of the date on which it is made. We undertake no obligation to publicly update any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future developments or otherwise.
