Forward Looking Statement

This release contains forward-looking statements within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, projections, forecasts, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not rely on any of these forward-looking statements. The Company makes no express or implied representation or warranty as to the completeness of forward-looking statements or, in the case of projections, as to their attainability or the accuracy and completeness of the assumptions from which they are derived. Factors that could cause actual results to materially differ from forward-looking statements include, but are not limited to, the need to obtain CE marking of new products, the acceptance of new products as well as existing products by doctors and hospitals, larger competitors with greater financial resources, the need to keep pace with technological changes, our dependence on the reimbursement for our products from health insurance companies, our dependence on third party manufacturers to produce our goods on time and to our specifications, implementation of our sales strategy including a strong direct sales force, the impact of COVID-19 on the global economy and other risks described in our filings with the Securities and Exchange Commission including, but not limited to our Annual Report on Form 10-K for the year ended December 31, 2022 as well as our quarterly reports on Form 10-Q and current reports on Form 8-K. Any forward-looking statement made by us in this release is based only on information currently available to us and speaks only as of the date on which it is made. We undertake no obligation to publicly update any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future developments or otherwise.

Corporate Overview

Noninvasive Sepsis Monitor
*utility patent filed

Patient Monitoring Product Pipeline

Hemodynamic Monitoring

Noninvasive, continuous fluid monitoring

Early Warning System

- Determines changing trend in patient condition

CM-1500

- FDA 510 (k) cleared - February 2020

CM-1600 next generation, wireless device

- FDA 510(k) cleared - June 2023
- CE mark in process

Pulse Oximetry

NiCO™

Noninvasive CO-Oximeter uses laser technology to measure hemoglobin

- Direct replacement for inaccurate LED-based technology common today

HemeOx™

Total Hemoglobin (tHb) Pulse Oximeter replaces invasive blood draws

Sepsis Monitoring

Global Health Concern

- 48M cases and 11M deaths per year, globally¹

Simplified Early Detection and Alerting

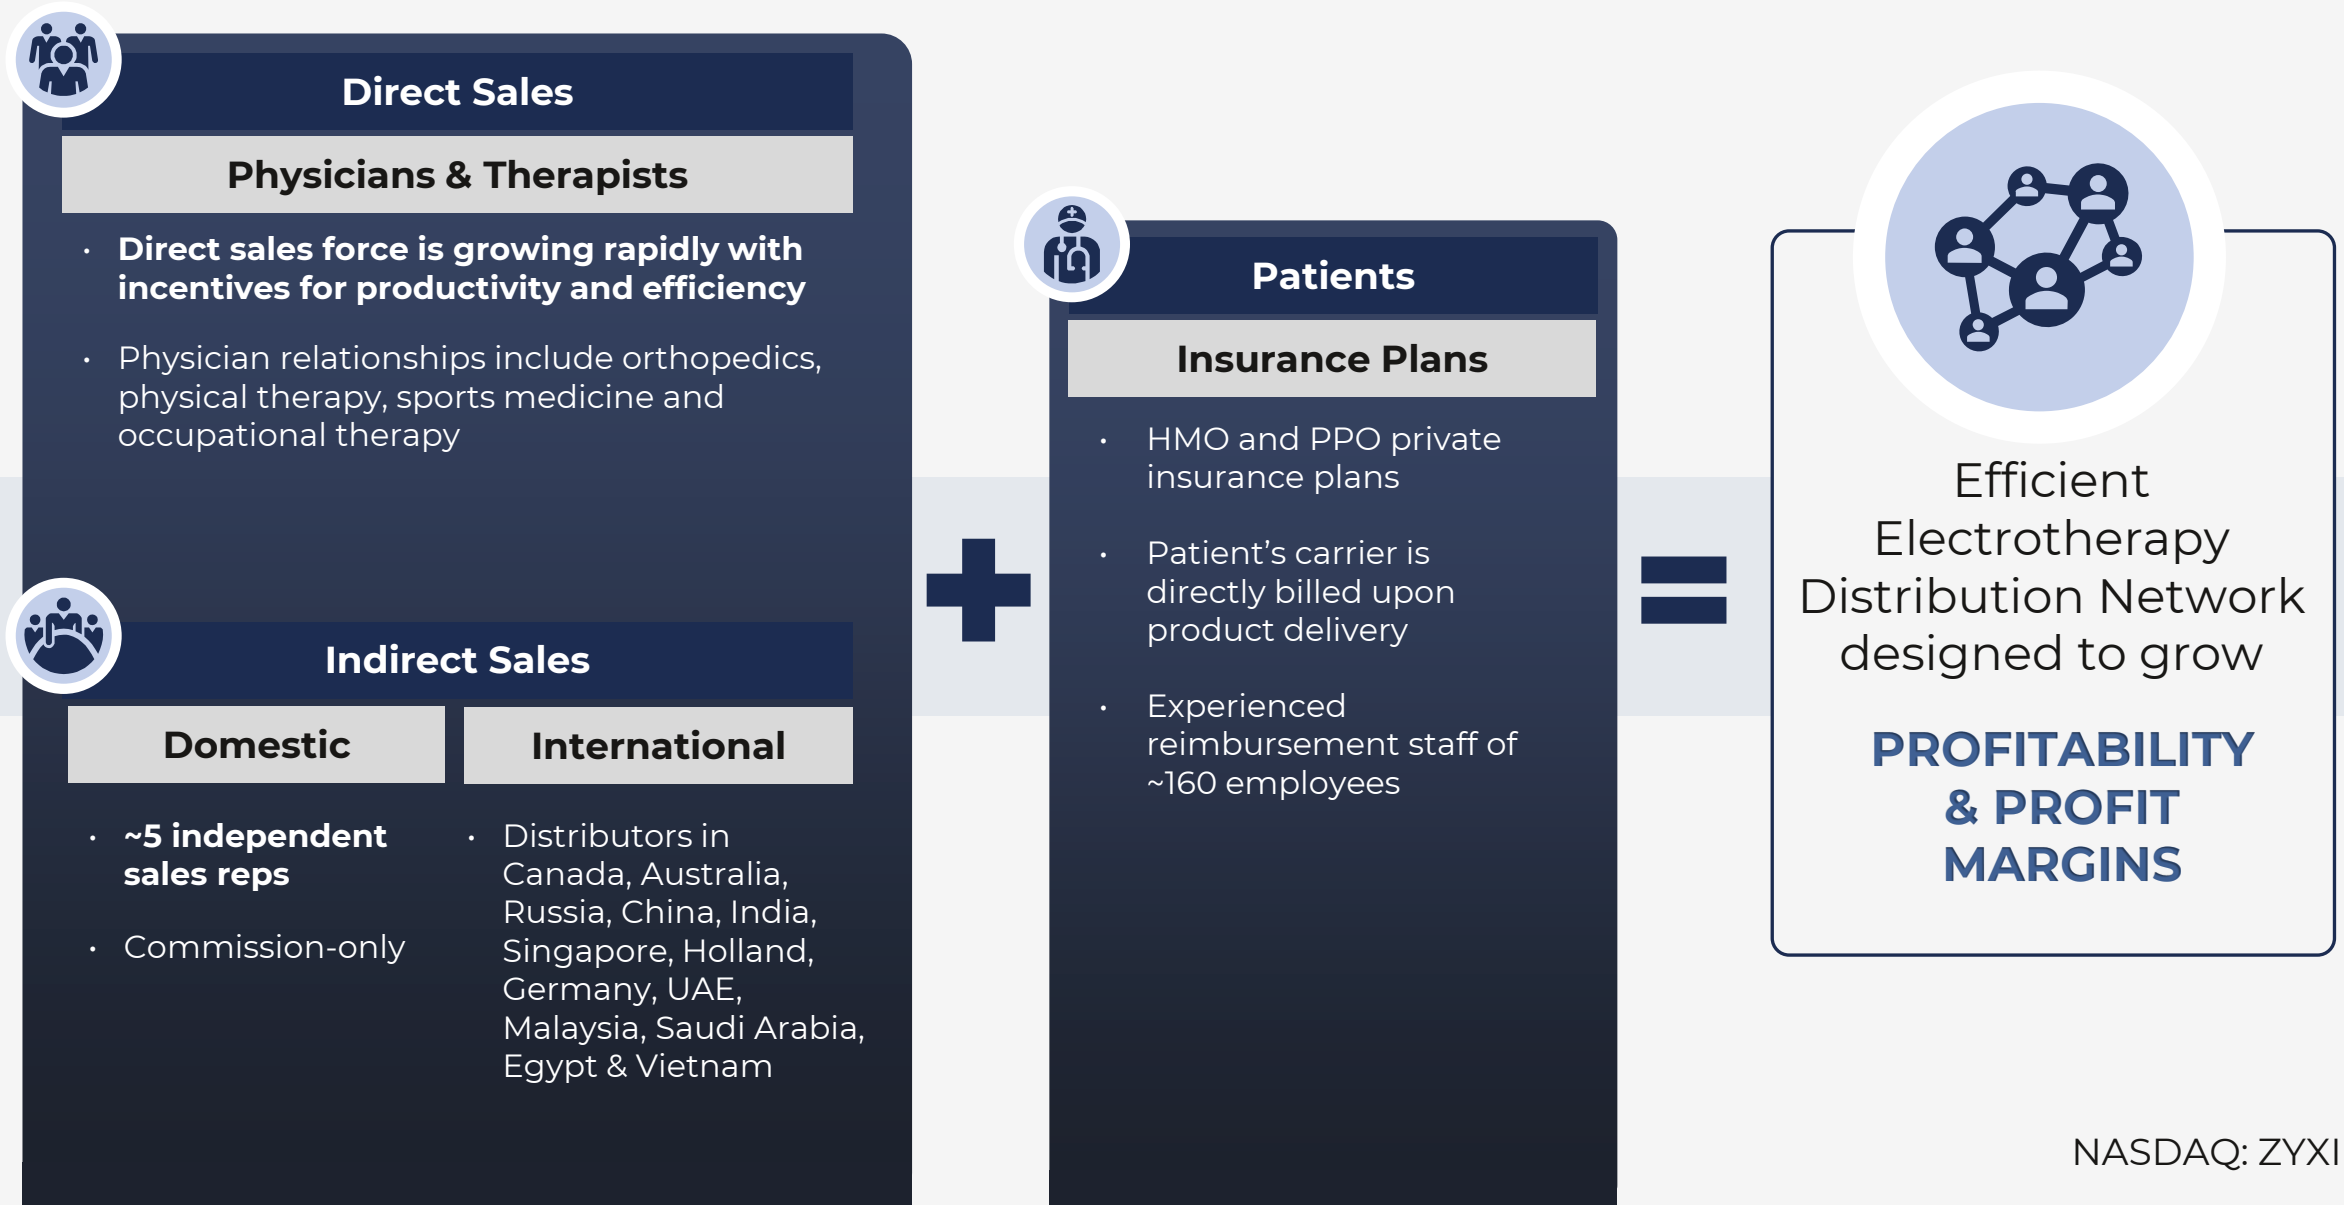

- Current methods insufficient in early detection and alerting of sepsis onset
- Prevalence of sepsis partially due to the challenge of early diagnosis

Utility Patent Filed

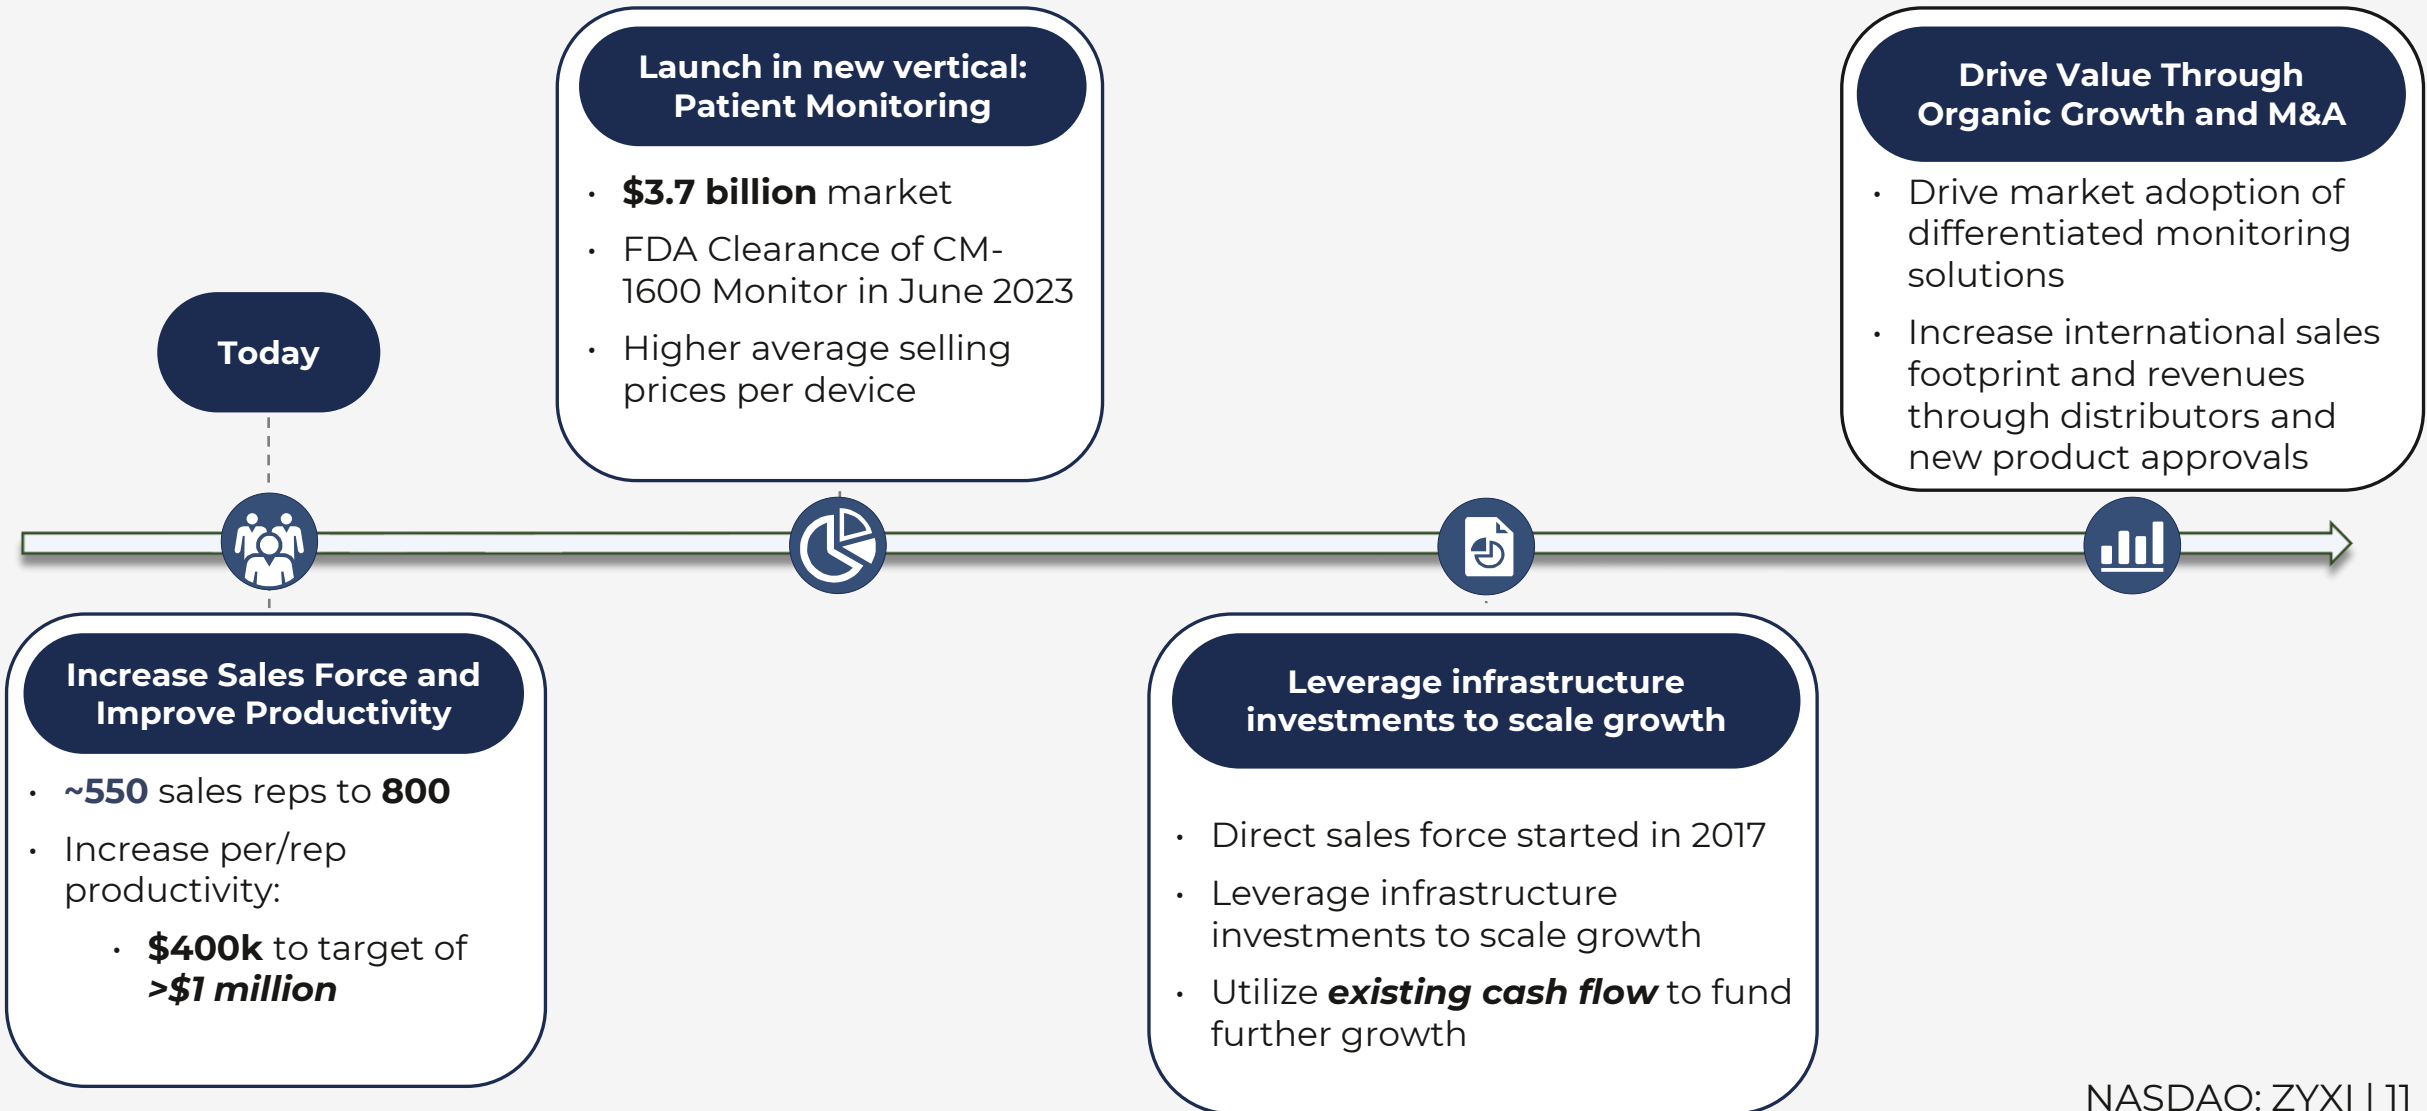

December 2021

Income tax expense	33	605
Adjusted EBITDA	\$ 1,014	\$ 3,074
<i>% of Net Revenue</i>	<i>2 %</i>	<i>10 %</i>

Use of Non-GAAP Financial Measures

This presentation includes the non-GAAP financial measure of Adjusted EBITDA, which differs from financial measures calculated in accordance with accounting principles generally accepted in the U.S. (GAAP). Adjusted EBITDA in this release represents net income plus interest expense, tax expense, depreciation, amortization, other income/expense, non-cash lease expense, restructuring/severance and stock compensation. The Company's management believes this non-GAAP financial measure is useful to investors and lenders in evaluating the overall financial health of the Company in that it allows for greater transparency of additional financial data routinely used by management to evaluate performance. Adjusted EBITDA can be useful for investors or lenders as an indicator of available earnings. Non-GAAP financial measures should not be considered in isolation from or as an alternative to the financial information prepared in accordance with GAAP. The following is a reconciliation of GAAP to Non-GAAP financial measures provided in this presentation.

\$ in thousands	For the Years Ended December 31,				
	2022	2021	2020	2019	2018
Adjusted EBITDA:					
Net income	\$ 17,048	\$ 17,103	\$ 9,074	\$ 9,492	\$ 9,552
